

Restore Mechanical Performance & Hotel Wellness

Our clients typically experience an immediate reduction of their utility bills by 15%, with an average ROI of 9 months.

BEFORE

AFTER

We restore HVAC equipment to perform like-new by removing harmful pathogens responsible for increasing energy costs and infectious indoor environments.

WHAT WE DO

Why SmartScrub Your Hotel?

Mitigate Pathogens
Mitigate pathogens and viruses in rooms and common areas.

Increase Asset Lifespan
Extend lifespan by 3 - 5 years and avoid CapEx replacement costs.

Improve Green-Key Eco-Rating
Replace toxic chemicals with 100% plant-based solutions.

Together, We Can Restore Guest Comfort and Peace of Mind

To learn more about how we can help you remove harmful pathogens inside your HVAC system and reduce operational costs, visit SmartScrub.ca or contact us staysafe@smartscrib.ca
